

## Argentine Occupational Safety and Health Week – 2005

Buenos Aires, Argentina, 25-28 April 2005

---

During this second commemoration of the Argentine Occupational Safety and Health Week, the Superintendency of Occupational Risks will include in its programme the joint holding with the **International Social Security Association (ISSA) of the seminar "Registration and notification of accidents and health monitoring in the Americas"**, which will be organized by the ISSA Technical Commission on Insurance against Employment Accidents and Occupational Diseases in the context of its cycle of seminars on the challenges of occupational diseases worldwide.

The seminar will benefit from the participation of eminent national specialists in the field, international trade union representatives, academics and occupational safety and health specialists from Europe, the United States and Latin America.

Simultaneous interpretation will be available between Spanish and English.

---
